IQRA NAWAZ

Junior AI/ML Engineer | Python • Machine Learning • Model Development • AI-Driven Applications
03319351629 | iqranawaz9353@gmail.com | linkedin.com/in/iqra-nawaz-b2216a25a | Karachi, Pakistan

PROFILE

Data Science graduate (B.S. Computer Science, NED University, CGPA 3.70/4.00) with hands-on experience in Python, machine learning, data preprocessing, model development, and building AI-driven applications. Practical experience spans dataset preparation, model training and evaluation, and deploying ML/NLP/deep-learning models as working applications, alongside an internship where I built, tested, and improved a real-world AI-powered automation solution. Comfortable with the end-to-end ML workflow — from cleaning and structuring data through model evaluation to shipping a usable application — and eager to keep growing applied AI/ML skills as part of a hands-on engineering team.

EXPERIENCE

AI / Data Science Intern — Logiciel Services (Pvt.) Ltd., Karachi *Jul 2026 – Aug 2026*

- Built an AI-powered automation solution for a fintech web platform, applying Python and AI/LLM-assisted workflows to structure and validate real-world operational data.
- Designed agent prompts, task flows, and validation logic, and iterated on model/automation behavior based on testing and stakeholder feedback.
- Built, tested, and improved the solution end-to-end — implementing error handling, structured logging, and status reporting to ensure reliable outputs.
- Collaborated with QA and engineering teams, writing test cases and refining logic through an iterative, feedback-driven development cycle.

Teaching Assistant, IT Fundamentals — NED University, Karachi *Fall 2025*

- Coordinated lab sessions and grading for a cohort of 60+ students, explaining technical concepts clearly.

IT Intern — Karachi Development Authority (KDA) *Jun 2025 – Aug 2025*

- Supported enterprise IT operations, system troubleshooting, and data management.

SELECTED AI/ML PROJECTS

AI-Based Medicine Recommendation System *Python • Machine Learning • Ongoing*

- Currently building an ML-based recommendation system — preparing and cleaning the dataset, training and evaluating candidate models, and developing the application layer for generating recommendations.

LeafGuard AI — Plant Disease Detection *CNN • Transfer Learning • Streamlit*

- Built a custom CNN with transfer learning for image classification, evaluated model performance, and deployed the model as an interactive Streamlit application.

SentixAI — Sentiment Analysis System *Python • NLP • Streamlit*

- Trained and evaluated an NLP model to classify 1,000+ product reviews by sentiment at ~92% accuracy, deploying results via Streamlit.

Automated Data Pipeline — Final Year Project *Python • Automation • Data Processing*

- Engineered an end-to-end pipeline converting unstructured documents into structured, analyzable data with automated reporting.

TECHNICAL SKILLS

Machine Learning & AI: Python, Machine Learning, Data Preprocessing, Model Development & Evaluation, NLP, CNN / Deep Learning, AI/LLM Workflows, Prompt Engineering, AI Automation
Programming & Data: Python, SQL, Pandas, NumPy, MySQL
Deployment & Tools: Streamlit, Jupyter, Google Colab, VS Code, Git
Data Engineering: Data Pipelines, ETL Concepts, Data Validation

EDUCATION

B.S. Computer Science (Data Science) — NED University, Karachi *2022 – 2026*
CGPA: 3.70 / 4.00 • Relevant Coursework: Machine Learning, Artificial Intelligence, Data Mining, Probability & Statistics

Intermediate, Pre-Engineering — Bahria College Karsaz • Grade A-1 (90.09%) *2020 – 2022*

CERTIFICATIONS

- Google Data Analytics Professional Certificate — Coursera (Jan 2026)
- Deloitte Data Analytics Job Simulation — Forage
- Google Project Management Professional Certificate — Coursera (Jan 2026)
- Huawei Certified ICT Associate (HCIA) – Datacom — earned 100% sponsorship as a top performer
